

USER MANUAL – EN

W-TEC Motorcycle Helmets

Before you start using your W-TEC helmet, read the following instructions.

W-TEC helmets are made using modern technologies to provide maximum protection for motorcyclists. Your new helmet was also thoroughly tested and meets the European motorcycle helmet standard ECE 22.05, as evidenced by the helmet label.

W-TEC motorcycle helmets were designed for motorcycle use. The same level of protection is not guaranteed when using them for any other activities. However, when driving at fast speeds, not even a helmet can prevent fatal injuries.

WHAT YOU NEED TO KNOW ABOUT YOUR HELMET

Even under ideal conditions, an accident may occur. An impact at just under 13 mph (21 km/h) can cause a serious head injury. Common sense dictates that you need protection. No helmet can protect you against all impacts, but a properly fitted and fastened quality motorcycle helmet is the most effective protection you can get.

ENSURING A PROPER FIT

A helmet should be snug, but not too tight. Once it is seated on your head, tighten the chin strap and position it well against your throat so that it is tight enough that you cannot place a finger between the strap and your throat. However, your breathing and the ability to swallow should not be impaired.

For safety reasons, it is essential to choose the correct helmet size. When choosing the helmet size, consult the seller. The helmet should fit your head firmly, yet comfortably.

Once securely fastened, move the helmet from side to side, and then up and down to ensure that your skin copies the movement of the helmet. If the helmet slips, try a smaller size. Try to roll the helmet forwards off your head by firmly pulling the rear end of the helmet upwards. You should not be able to remove a helmet that fits correctly in this manner.

BEFORE YOU SET OUT

Always check the face shield screws on both sides of the helmet before riding. It can be very dangerous if these parts come loose during riding. Tighten them if necessary.

Never ride with the shield open. Do not use a tinted face shield while riding at night or in poor visibility conditions.

Always fasten your chin strap before heading out.

REMEMBER: Helmets reduce your ability to hear, especially at high speeds.

Sudden changes in temperature can cause unexpected misting of your shield and worsened visibility. Be aware of how your perception of the trail conditions is affected.

HELMET MAINTENANCE

Your helmet may be damaged and rendered ineffective by petroleum and petrochemical products, cleaning agents, paints, adhesives and other substances without the damage being visible to the naked eye.

To clean your helmet, use only the following materials: mild soap and water or a solution of bicarbonate of soda for the liner and auto wax or polish for the outer shell.

After cleaning the interior, rinse it with a damp cloth and let it dry at room temperature. High heat will damage the lining. The same is true for strong solvents and gasoline products.

It is a good idea to keep your helmet in a secure place when you are not using it.

Visors should not be visibly cold when being refitted, otherwise they may crack.

DON'T MISTREAT YOUR HELMET

Never ride with the helmet hanging from the helmet holder.

Don't sit on the helmet or throw it around. Mistreating your helmet like this will damage the shell and the shock-absorbing lining and impair the helmet's ability to protect you in an accident.

DON'T TAMPER WITH THE HELMET

Do not modify the helmet in any way – do not puncture or drill into the shell, do not cut or remove any parts even though they may seem unnecessary, do not damage the inner polystyrene layer in any way. Do not cut the inner lining, you could seriously damage the helmet's structure.

Use only W-TEC original spare parts.

HELMETS ARE DESIGNED TO ABSORB ONE IMPACT

A helmet only works once. After it has protected you from a major impact, you must replace it. An impact or fall could seriously compromise the safety of your helmet even if there was no visible damage.

The shock absorber inside the helmet is made of polystyrene. During an impact or fall, the polystyrene shell is compressed, leaving a gap between the inner and outer shell of the helmet. The helmet no longer has the ability to absorb further impacts. Never wear a helmet that has sustained an impact of any sort.

WARNING: NEVER USE THIS OR ANY OTHER HELMET AFTER IT HAS BEEN SUBJECTED TO AN IMPACT OF ANY KIND.

TERMS AND CONDITIONS OF WARRANTY, WARRANTY CLAIMS

General Conditions of Warranty and Definition of Terms

All Warranty Conditions stated hereunder determine Warranty Coverage and Warranty Claim Procedure. Conditions of Warranty and Warranty Claims are governed by Act No. 40/1964 Coll. Civil Code, Act No. 513/1991 Coll., Commercial Code, and Act No. 634/1992 Coll., Consumer Protection Act, as amended, also in cases that are not specified by these Warranty rules.

The seller is SEVEN SPORT s.r.o. with its registered office in Borivojova Street 35/878, Prague 13000, Company Registration Number: 26847264, registered in the Trade Register at Regional Court in Prague, Section C, Insert No. 116888.

According to valid legal regulations it depends whether the Buyer is the End Customer or not.

“The Buyer who is the End Customer” or simply the “End Customer” is the legal entity that does not conclude and execute the Contract in order to run or promote his own trade or business activities.

“The Buyer who is not the End Customer” is a Businessman that buys Goods or uses services for the purpose of using the Goods or services for his own business activities. The Buyer conforms to the General Purchase Agreement and business conditions to the extent specified in the Commercial Code.

These Conditions of Warranty and Warranty Claims are an integral part of every Purchase Agreement made between the Seller and the Buyer. All Warranty Conditions are valid and binding, unless otherwise specified in the Purchase Agreement, in the Amendment to this Contract or in another written agreement.

Warranty Conditions

Warranty Period

The Seller provides the Buyer a 24 months Warranty for Goods Quality, unless otherwise specified in the Certificate of Warranty, Invoice, Bill of Delivery or other documents related to the Goods. The legal warranty period provided to the Consumer is not affected.

By the Warranty for Goods Quality, the Seller guarantees that the delivered Goods shall be, for a certain period of time, suitable for regular or contracted use, and that the Goods shall maintain its regular or contracted features.

The Warranty does not cover defects resulting from (if applicable):

- User's fault, i.e. product damage caused by unqualified repair work, improper assembly, insufficient insertion of seat post into frame, insufficient tightening of pedals and cranks

- Improper maintenance
- Mechanical damages
- Regular use (e.g. wearing out of rubber and plastic parts, moving mechanisms, joints etc.)
- Unavoidable event, natural disaster
- Adjustments made by unqualified person
- Improper maintenance, improper placement, damages caused by low or high temperature, water, inappropriate pressure, shocks, intentional changes in design or construction etc.

Warranty Claim Procedure

The Buyer is obliged to check the Goods delivered by the Seller immediately after taking the responsibility for the Goods and its damages, i.e. immediately after its delivery. The Buyer must check the Goods so that he discovers all the defects that can be discovered by such check.

When making a Warranty Claim the Buyer is obliged, on request of the Seller, to prove the purchase and validity of the claim by the Invoice or Bill of Delivery that includes the product's serial number, or eventually by the documents without the serial number. If the Buyer does not prove the validity of the Warranty Claim by these documents, the Seller has the right to reject the Warranty Claim.

If the Buyer gives notice of a defect that is not covered by the Warranty (e.g. in the case that the Warranty Conditions were not fulfilled or in the case of reporting the defect by mistake etc.), the Seller is eligible to require a compensation for all the costs arising from the repair. The cost shall be calculated according to the valid price list of services and transport costs.

If the Seller finds out (by testing) that the product is not damaged, the Warranty Claim is not accepted. The Seller reserves the right to claim a compensation for costs arising from the false Warranty Claim.

In case the Buyer makes a claim about the Goods that is legally covered by the Warranty provided by the Seller, the Seller shall fix the reported defects by means of repair or by the exchange of the damaged part or product for a new one. Based on the agreement of the Buyer, the Seller has the right to exchange the defected Goods for a fully compatible Goods of the same or better technical characteristics. The Seller is entitled to choose the form of the Warranty Claim Procedures described in this paragraph.

The Seller shall settle the Warranty Claim within 30 days after the delivery of the defective Goods, unless a longer period has been agreed upon. The day when the repaired or exchanged Goods is handed over to the Buyer is considered to be the day of the Warranty Claim settlement. When the Seller is not able to settle the Warranty Claim within the agreed period due to the specific nature of the Goods defect, he and the Buyer shall make an agreement about an alternative solution. In case such agreement is not made, the Seller is obliged to provide the Buyer with a financial compensation in the form of a refund.
